WE SHARE YOUR PASSION...

OUR CULTURE IS SUSTAINABILITY

 Extreme Legacy is a renowned engineering design and manufacturing firm, specializing in award-winning amusement rides and custom fabrication services. Headquartered in Orlando, Florida, with additional locations across the U.S., we are widely recognized as a leader in creating family-friendly attractions for top-tier destinations and amusement parks worldwide. With thousands of satisfied clients, chances are you've experienced one of our exhilarating attractions or seen our custom designs in action. We proudly serve industry giants like Six Flags, Disney, Universal, Bluegreen Resorts, Merlin Entertainment, Ferrari World, Holiday Inn, and many more. When it comes to delivering safe, innovative, and thrilling attractions, Extreme Legacy is the go-to expert.

As the top choice for engineering design and fabrication of family coasters and adventure rides, we offer boundless creative possibilities. Our talented design engineers and skilled sales team bring even the most ambitious visions to life. From award-winning rides to expert engineering solutions, we support your creative vision at every step. Our dedication to the amusement industry extends beyond our projects: we actively serve on safety committees, help shape industry standards, and have even held positions on the IAAPA Board of Directors. We do all this because we believe in the industry's future, value safety, and are passionate about creating memorable experiences for families.

Our team wakes up every day eager to tackle the next attraction design or visit a world-class theme park. We're always ready to shape the future of entertainment, but we don't stop there. Innovation, industry expertise, and breakthrough designs are standard in every one of our attractions. We prioritize integrity, honesty, creativity, and the protection of intellectual property to ensure our industry thrives. While others may attempt to follow in our footsteps, we've already moved on. Extreme Legacy is dynamic, always forward-thinking, and committed to providing customers with cutting-edge designs. We make your ideas more real than reality itself. [We believe in inventing forward.](#)

MOBILE FLY WIRE ZIPLINE

Extreme Legacy is the mastermind behind the world's finest mobile adventure rides. We craft every attraction using top-of-the-line materials because, let's face it, who wants a subpar adventure? Our attractions are built to meet ASTM and other industry standards, so you know you're getting the real deal in thrill-seeking fun.

Going mobile isn't just cool—it's a game changer for your business and promotions. Our attractions set up in a flash and can be moved around your property or to new spots with ease. Need a change of scenery? No problem! With Extreme Legacy's mobile rides, you can reconfigure your adventure experience on the fly—because flexibility is the name of the game.

The award winning Fly Wire™ Zipline, winner of “Best Major Theme Park Ride” and “Best Technology Applied” at IAAPA, provides thrill seekers the ultimate rush of zip-lining across the sky up to 300 feet on a mobile zipline - the length of an entire football field. Thrill seekers can zipline even longer on our stationary models. Offering the fastest cycle times on the market to serve up to 90 riders an hour, there is no other zipline product in the world that can compete with the Fly Wire’s™ ease of set-up and completely controlled method of keeping zip-liners soaring with confidence. The Fly Wire™ is your amusement zipline solution! With superior engineering and the patent pending Decelinator™ safety system why would you zipline anywhere else? Every mobile Fly Wire Zipline meets ASTM and other industry standards. Extreme Legacy offers a fast, fun and safe zipline ride every time!

We provide the engineering geek, marketing sleek and business sales success all in one! Extreme Legacy only uses the best materials available in the production process of every Fly Wire™ Zipline.

YOUR ADVENTURE
ENTHUSIASTS**

MONDAYS SEPT FOX

MOBILE FLY WIRE ZIPLINE

U.S. Patents.

Channel your inner superhero and zip into profit with the mobile "Fly Wire™" zipline by Extreme Legacy. Thrill seekers of all ages will be lining up to experience the ultimate rush of ziplining across the length of a football field (up to 300 feet*). Zipline at serious speeds on the awarded "Best Major Theme Park Ride." Soar at 21 MPH with two people at the same time! The Fly Wire™ is the zipline solution for the amusement industry that is looking for quick cycle times, safety and low staffing. No other zipline in the world can compete with the Fly Wire's™ quick cycle times. Zip up to 90 people an hour! The mobile Fly Wire™ is easy to setup. Extreme Legacy's zipline has a completely controlled method of keeping zip-liners safely off the ground. Both mobile and stationary models are available.

* Longer distances are available on all stationary models.

FLY WIRE ZIPLINE

U.S. Patents.

Extreme Legacy's Fly Wire™ zipline is perfect for promotions, such as tv and movie premieres. The mobile zipline can be custom themed to amplify any brand you desire!

DECELINATOR

U.S. Patents.

There is safe, and then there is Extreme Legacy safe. The Fly Wire™ is the only zipline of its kind using the safest decelerator on the market, the Decelinator™, a proprietary device that fully lowers zip-liners and everyday superheroes safely to the ground. The hydraulically activated Decelinator™ raises up in the air, keeping zip liners safely off the landing area. Once the zipline trolley descends into a "Power Pack," a variable rate shock, the zip-liners are safely slowed down at the end of each ride. When the zip-liners are stopped, they are hydraulically lowered safely to the landing area. The Decelinator™ also controls the zipline tower's exit doors, preventing them from opening until the zipline is ready for operation. No other zipline in the world offers these safety features. This is one advanced, amusement zipline ride!

AWARDED FOR
TECHNOLOGY
AT IAAPA!

1. Tow to location.

2. Drop integrated Decelinator™ from trailer.

3. Pull forward & raise tower.

4. Walk up staircase.

5. Zip across a waterpark!
