MOBILE GEOWALL

MOBILE CLIMBING WALLS

WE SHARE YOUR PASSION...

OUR CULTURE IS SUSTAINABILITY

 Extreme Legacy is a renowned engineering design and manufacturing firm, specializing in award-winning amusement rides and custom fabrication services. Headquartered in Orlando, Florida, with additional locations across the U.S., we are widely recognized as a leader in creating family-friendly attractions for top-tier destinations and amusement parks worldwide. With thousands of satisfied clients, chances are you've experienced one of our exhilarating attractions or seen our custom designs in action. We proudly serve industry giants like Six Flags, Disney, Universal, Bluegreen Resorts, Merlin Entertainment, Ferrari World, Holiday Inn, and many more. When it comes to delivering safe, innovative, and thrilling attractions, Extreme Legacy is the go-to expert.

As the top choice for engineering design and fabrication of family coasters and adventure rides, we offer boundless creative possibilities. Our talented design engineers and skilled sales team bring even the most ambitious visions to life. From award-winning rides to expert engineering solutions, we support your creative vision at every step. Our dedication to the amusement industry extends beyond our projects: we actively serve on safety committees, help shape industry standards, and have even held positions on the IAAPA Board of Directors. We do all this because we believe in the industry's future, value safety, and are passionate about creating memorable experiences for families.

Our team wakes up every day eager to tackle the next attraction design or visit a world-class theme park. We're always ready to shape the future of entertainment, but we don't stop there. Innovation, industry expertise, and breakthrough designs are standard in every one of our attractions. We prioritize integrity, honesty, creativity, and the protection of intellectual property to ensure our industry thrives. While others may attempt to follow in our footsteps, we've already moved on. Extreme Legacy is dynamic, always forward-thinking, and committed to providing customers with cutting-edge designs. We make your ideas more real than reality itself. [We believe in inventing forward.](#)

Surface Area:	390 SF (36.1 Meters)
Travel Height:	9'2" (2.8 Meters)
Travel Width:	8'0" (2.4 Meters)
Dry Weight:	4,400 lbs MW3 Version (2,000 KG) 4,800 lbs MW4 Version (2,182 KG)
Brake:	Electric 12 Volt
Auto-belays™ :	Fully Redundant

SPACE SAVER TRAILER

U.S. Patent Number 6,659,496.

The patented Space Saver Trailer™, exclusively provided by Extreme Legacy, is used on every mobile climbing wall sold today. The trailer design shortens the footprint needed for operation. With a Space Saver Trailer™ most of the mobile climbing walls can operate within 200 SQ FT (61 Meters SQ). Our products are designed using aeronautical principles, making Extreme Legacy's products the lightest and strongest in the industry. The lightweight trailer design is fuel efficient. All Extreme Legacy Space Saver Trailers™ meet ASTM and other standards. The Space Saver Trailers™ are used by professional operators worldwide.

AUTO-BELAY SYSTEM

U.S. Patent Number 6,630,952.

You are in good hands, I mean belay devices. Extreme Legacy is globally known as the revolutionizing the climbing experience. Kick out the belayer and allow our machine to do all the work. Efficient. Reliable. Shows up to work on time. Extreme Legacy's Auto-belays™ are included with every mobile climbing wall we sell today. If you are looking for a solution to consolidate staffing requirements and safely replace a manual employee to belay climbers, then look no further. Extreme Legacy's patented Auto-belay™ is the only fully redundant system available. Previously awarded "Best Technology Applied" by industry experts at IAAPA, this is the safest Auto-belay™ system on the market. Our Auto-belays™ don't get distracted, don't ever take breaks and never get tired. It's simple, once the participant is done climbing, the pressure from the device will safely lower the participant slowly to the ground. Our are a perfect match almost anywhere! Great for rope courses, climbing gyms, fitness centers and search and rescue. Meets ASTM and other industry standards.
